## A&D PRECISION HEALTH SCALES

The A&D UC series health scales are sleek, stylish scales that offer more precise readings and functionality than traditional scales. It has a simple one-button control which eliminates bending over to turn it on or off. They automatically calculate BMI (Body Mass Index) using weight-to-height ratios. Features also include a large LCD 1" digital display, low profile and anti-slip design, 31 weight memories, and battery operation with auto-power off. They also have a "Target Weight Function" that automatically calculates the difference between the desired and actual weight. These scales are extremely useful for athletes and diabetics who need to closely monitor and control their body weight within a certain range. Platform size H006: 12.6" W x 12.3" D x 1.4" H. Platform size H007: 11.6" W x 8.3" D x 1.6" H. Ship Weight 7 lbs. Warranty 3 years.

**SECA 700 MECHANICAL BEAM SCALE**

The SECA 700 mechanical weighing station combines precision weighing with height measurement, making it popular with physicians. It also saves time and unnecessary effort when weighing and measuring since body height and weight are measured simultaneously. It has a 400 lb capacity with 4 oz graduations, making it ideal for weight loss centers, clinics, hospitals, and fitness clubs. This scale comes equipped with a slip-resistant, heavy duty cast iron base that eliminates the need for a mat. Comes with a heavy duty lever system and height rod. Available in lbs, kgs, or lbs/kg display. Overall dimensions: 57.5" H x 17" W x 20" D. Base dimensions: 4" H x 10.75" W x 14.37" D. Ship Weight 42 lbs. Warranty 5 years.

## SECA 780 DIGITAL SCALE

The SECA 780 Digital Scale has all the benefits of a digital scale at a beam scale price. This column allows for up to 80,000 weighings with only one set of batteries because of the power-saving tuning-fork sensor system. It is equipped with a solid platform and has built-in casters for mobility. Also available with an optional height rod. Capacity: 350 lbs with 0.2 lb graduations. Powered by four "AA" alkaline batteries (included). Overall dimensions: 32-3/8" H x 11.5" W x 15.25" D. Base dimensions: 3" H x 11.5" W x 11.75" D. Ship Weight 17.5 lbs. Warranty 1 year.

**SECA 882 DIGITAL SCALE**

The SECA 882 digital floor scale with remote indicator delivers accurate, reliable performance in any setting. Thanks to the remote control unit, the display of this intelligent flat scale can be placed on the table or on the wall (mounting block for wall mounting included). This allows for many additional functions such as calculation of the Body-Mass-Index or the pre-Tare-function. For instance, a previously stored weight can be subtracted from the current weight. This way, weight of the clothing is ignored. In addition, the integrated limit value function allows load control when the scale is used by somebody with a walking disability. The Tare-function gives you the possibility to set the current weight to zero. Place another weight on the existing weight and the scale will display only the new weight. Built-in handle for mobility. Capacity: 400 lbs by 0.2 lb graduations. Powered by four "AA" alkaline batteries (included) good for over 20,000 weighments. Remote dimensions: 1.87" H x 7.87" W x 6.25" D. Base dimensions: 3.0" H x 11.5" W x 11.75" D. Cord length: 7' 8". Ship Weight 13 lbs. Warranty 1 year.

**SECA 674 MULTI-FUNCTION SCALE**

This multi-function scale is designed particularly for people who need assistance. It has a extremely large, flat platform with built-in ramp to accommodate people in wheel chairs or seated during dialysis. It also includes a Tare function, Hold function, and a weight value memory (Pre-Tare function) for three wheelchairs. The transport casters make it easy to maneuver the scale from room to room. Easily to read because of a bright LCD display. Capacity: 660 lbs with 0.2 lb graduations. Power requirements: AC power adapter (included), rechargeable batteries. Base Dimensions: 2" H x 31-3/8" W x 44-5/8" D. Approximate Ship Weight 54 lbs. Warranty 1 year.

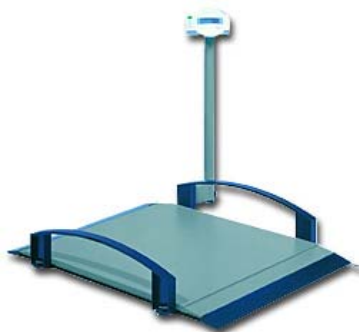

ORDER NO.	PART NO.	CAPACITY	PRICE
PW210	SECA674	660 lbs x 0.2 lbs	\$ 1528.00

**SECA 664 WHEELCHAIR SCALE**

This wheelchair scale is made for heavy loads with a capacity of 600 lbs with graduations of 0.2 lbs. Thanks to the extremely flat platform, the scale is easy for wheelchair users to mount and the side barriers ensure maximum safety. The integrated pre-Tare function determines the patient's net weight in seconds and a real advantage is its Hold-function which continues to display weight in large, easy-to-read figures even after the patient is removed. The Tare-function is used to set the current weight to zero. This way, you can place another weight on the existing weight and the scale will display only the new weight. This scale can be folded and transported on built-in castors. Dimensions: 36" H x 40-1/2" W x 44.5/8" D. Base dimensions: 2" H x 31-3/8" W x 44-5/8" D. Power Supply: A/C adapter (rechargeable batteries). Approximate Ship Weight 54 lbs. Warranty 1 year.

**SECA 345 BABY SCALE**

The SECA 345 electronic baby scale has a removable and foldable white durable plastic weighing tray that makes it ideal for a hospital or clinic. The large, easy-to-read LCD display and an auto 2 minute shut-off feature shuts the scale in two minutes after the last use. This scale allows the user to compare the baby's current weight to a stored weight without having to pull the record. Capacity: 33 lbs. Graduations: 0-33 x 1/2 oz, 0-6 kg x 6 gm, 7-15 kg x 15 gm. You can easily switch between lbs and kgs. Powered by 9V battery (included) good for 3,000 weighments. Overall Size: 6-3/4" H x 23-1/8" W x 12-1/4" D. Tray size: 23-1/8" W x 8" D. Ship Weight 8 lbs. Warranty 1 year.
